

## Positive Ageing Photography Competition

To mark World Elder Abuse Awareness Day, the Helpline has developed the positive ageing photography competition. Help raise awareness of elder abuse and the Helpline's work by participating!

**Talk positive ageing with your family, friends and colleagues whilst you compose your photographs.** It's via these conversations that pathways to awareness and prevention are conceived.

**Get involved!** Entry is open to anyone!

Be creative with your photograph, using the theme **Positive Ageing** as your inspiration. You can capture your image on any digital camera, such as your mobile phone.

There are great prizes to be won, so join in!

Full terms and conditions and entry forms are available via the Helpline's website:
